

WIA TITLE 1B PROGRAM

LOWER LIVING STANDARD INCOME LEVELS (LLSIL) PY 2014

The LLSIL and poverty guidelines are used to establish low-income status for WIA Title 1B programs. Local Workforce Investment Areas (LWIAs) use the LLSIL to determine eligibility for disadvantaged youth, disadvantaged adult (unemployed), employed adults for certain services, and self-sufficiency.

The WIA Section 101(25) (B) sets the criteria LWIAs use in determining whether an individual is low-income. These criteria include two sets of data:

- The poverty guidelines, as published by U.S. Department of Health and Human Services (DHHS), and
- 70% of the LLSIL, as determined by the DOL, Employment and Training Administration, Secretary of Labor.

Metropolitan income levels apply to residents living within Metropolitan Statistical Areas (MSA) as defined by the Office of Management and Budget. A metropolitan area contains a core urban area population of 50,000 or more. A non-metropolitan area contains a core urban area population of less than 50,000. There are six Metropolitan Statistical Areas in Arizona: Flagstaff (Coconino County); Lake Havasu City - Kingman (Mohave County); Phoenix-Mesa-Glendale (Maricopa and Pinal Counties); Prescott (Yavapai County); Tucson (Pima County); and Yuma (Yuma County). The remainder of the state is categorized as non-metropolitan.

PROCEDURES FOR DETERMINING LOW-INCOME STATUS:

1. Select the appropriate table for use by your LWIA.
2. Identify the appropriate family size to determine low-income status:
 - WIA eligibility for disadvantaged youth when funding is limited is determined by utilizing the column “70% LLSIL (metro/non-metro)” annual income levels as indicated on the attached tables, with the exception of those youth served under the 5% annual income exception rule. (See WIA Final Rule, Section 664.220.)
 - WIA eligibility for disadvantaged adult (unemployed) when funding is limited is determined by utilizing the column “70% LLSIL (metro/non-metro)” annual income levels as indicated on the attached tables.
 - WIA eligibility for employed individuals (adults/dislocated workers) is determined by utilizing the columns “Self-Sufficiency for Adult” or “Self-Sufficiency Dislocated Workers” annual income levels on the attached tables. (See WIA Final Rules, Section 132(b) (1) (B) (v) (IV).)
